

To widely publicize the local tourist spots, such as Mt. Wolchul National Park and the historic site of Dr. Wangin, and contribute to the generation of agricultural income and promotion of the tourist industry as well as to cultivate the sentiment of the citizens of the county, we are hosting the Yeongam Wangin Chrysanthemum Festival.

During the Wangin Chrysanthemum Festival many cultural events are held in Yeongam County, including the 3rd Doseonguksa Cultural and Art festival, the Dr. Wangin reproduction program, as well as the ceramic art exhibition sponsored by the citizens of Hirakata, Japan. Local and foreign tourists are invited to participate and have wonderful memories of Yeongam, the home of Dr. Wangin, and to fully enjoy the scent of chrysanthemums filled with the chi (force) of Mt. Wolchul.
